

Quiz 05

Four questions on lecture concepts and one reflection on a reading of your choice. 4 points each; 20 points total. Answer in your own words, one to three sentences each. Submit online at hyang.org/amcc5160/quiz-05/ before the end of the semester.

QUESTION 01 • 4 POINTS

What is the difference between Textual Inversion and DreamBooth? Say which part of the model each one changes.

QUESTION 02 • 4 POINTS

What is a LoRA, and why is it small enough to share as a file?

QUESTION 03 • 4 POINTS

What does it mean when a model has "memorized" a training image or an artist's style? Give one example from the lecture.

QUESTION 04 • 4 POINTS

What is concept ablation? Give one example of something a model could be made to forget, and one reason an artist might want this.

QUESTION 05 • 4 POINTS

Choose one of the three readings. Briefly state its main idea and give one reason you agree or disagree with it.
